## WALK TO READ AND JOURNEY TO MATH

In person learning is something that we have continued to support throughout the pandemic . We will continue to do this and provide our kids with the education that they need as we support each learner here at Boistfort. We have established a program that allows student groups to be successful through “Walk to Read” and “Journey to Math” programs.

This program groups students of similar abilities and supports them at a level that will push them to succeed. An example of this is a student that is in a 4th grade class and is reading at the 6th grade level will be grouped with students in their range of ability during our Walk to Read time. This allows students to be supported and challenged in their academic levels. This also give our staff the ability to focus on student successes or any needs that students have within a similar ability level.

## SMARTER BALANCED STATE TESTING

Boistfort School will be starting Smarter Balanced State Testing the week of October 18th.

This round of testing was delayed during the spring of 2021 due to the lack of state wide in-person school.

## CAFETERIA ANNOUNCEMENTS

The Seamless Summer Option lunch program that our school has opted to use this school year allows our students to eat breakfast and lunch free of charge. It does not, however, cover the cost of a single milk. If your child choses to get a milk with their home lunch, the cost is \$0.35.

We have also been having students bring lunches that require heating and have asked staff to heat lunches in the microwave. Lunches are not able to be heated up at school. If your student wants home lunch, please be sure that it does not require heating.
